**Don't worry** we're not going to hijack you computer, or in anyway compromise your computer's security or functionality. We just want to show you it's already been done!—by the spyware, malware and adware inside your computer!

---

## Your computer is always a target!

Every time you browse the internet—check your email—download music—download videos—insidious spyware, malware and adware programs attach themselves to your computer's hard drive—slowing down your system and your internet connection—just so they can monitor everything you do on your computer, and when possible, sell your personal information to the highest bidder.

“I have had many virus and spyware attacks. Your software has saved me more times than I can count. Thx...”

-- Phil Dana, Chapel Hill, NC

[End Sidebar]

Firewalls and anti-virus programs cannot stop them, or protect you—they cannot remove spyware, malware or adware programs once installed—and they cannot restore your computer's speed and processing performance to its original levels. **Spyware Striker Pro** can!
